### PROFILE

---

Passionate React Developer with expertise in building scalable web applications using JavaScript, Tailwind.css, MongoDB, Express.js and Node.js. Skilled in both front-end and back-end development, with a strong focus on delivering seamless integrations and optimized performance. BCA graduate from Srinivas University, eager to contribute to impactful projects, collaborate with innovative teams, and develop solutions that meet both user and business needs.

### PROFESSIONAL EXPERIENCE

---

#### MERN Stack Developer Intern — Luminar Technolab (Calicut, India | 2024)

- Developed responsive, dynamic interfaces with React, Bootstrap and Tailwind ensuring crossbrowser support.
- Designed and implemented RESTful APIs with Node.js and Express.js, enabling seamless CRUD operations.
- Optimized database queries and backend logic, improving performance and data flow efficiency.

### EDUCATION

---

**Bachelor of Computer Applications (BCA)**, Srinivas University (Mangalore, India | 2021 – 2024)

**Higher Secondary (Humanities)**, Sree Durga HSS (Kanhangad, India | 2019 – 2021)

### SKILLS

---

- **Frontend:** React.js, HTML5, CSS3, JavaScript, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **State Management & Tools:** Redux, Git, REST APIs

### PROJECTS

---

#### Fashion Store E-commerce

- Designed and implemented an e-commerce frontend with responsive product cards and grid layouts.
- Added features like product listing, cart summary with quantity/price management, and checkout flow.
- Improved proficiency in React Bootstrap and responsive UI design.

#### HirePro — Online Interview Platform (2025)

- Built a real-time video interview platform with live video calling, chat, and collaborative coding rounds.
- Integrated **WebRTC** and **Peer.js** for peer-to-peer video communication, and **Socket.IO** 📧 for real-time chat and signaling.
- Implemented role-based authentication (Interviewer/Admin) using **Redux** and **JWT**.

#### Media Player

- Developed a responsive media player application with React.js.
- Implemented features such as play, pause, next/previous track, and playlist management.
- Used Git and GitHub for version control and project collaboration.
